HEALTH SAVINGS ACCOUNTS AND MENTAL HEALTH CARE

May is Mental Health Awareness Month. It is estimated that one in five U.S. adults live with a mental illness. There are many conditions and varying degrees of mental illness. Paying for assessment, treatments, and support with mental illness can take a toll. According to IRS.gov, Health Savings Accounts can be used to pay for qualified health expenses related to mental health.

For example, medical expenses paid for psychiatric care or for treatment at a health institute can be paid through a Health Savings Account if the treatment is prescribed by a physician. You can also include medical expense amounts you pay for therapy received as medical treatment. [CLICK HERE](#) for full details on related qualified expenses.

Below are some articles regarding mental health care and health savings accounts that may be a good resource:

KEEP YOUR VIEW ON THE HORIZON

The financial professionals at Indiana Members Investment Services will work with you to construct a plan designed to weather short-term market declines, and work toward your financial goals over the long term. When working with us to build and evaluate your plan we encourage you to view it in light of its long term objectives. We anticipate and strategize for market dips and spikes to keep your view on the horizon. By keeping your view focused on the long term, you can reduce the emotional impact of short-term changes in account value. Sticking with the plan can increase the chance of reaching your goals in any market environment!
